Personal Summary

Passionate software engineer and proactive team player with a competitive edge, driven to learn and implement emerging technologies to build innovative solutions. With a problem-solving mindset, I excel in dynamic environments, collaborating seamlessly with cross-functional teams. Committed to continuous growth, I expand my expertise beyond engineering to develop impactful projects and transform complex ideas into real-world applications.

Education

- **Goa College of Engineering** | Aug 2022 - Present | B.E. in Information Technology (Minor: Data Science) | Ponda, Goa | CGPA: 7.7 (Relevant Courses: Data Structures, Algorithms)
- **St. Xavier's Higher Secondary** | 2022 | Higher Secondary School Certificate | Mapusa, Goa | 70%
- **Chubby Cheeks Spring Valley** | 2020 | Secondary School Certificate | Porvorim, Goa | 80%

Projects

Carpooling App | MERN Stack (MongoDB, Express.js, React, Node.js)

- Tech Stack: MongoDB, Express.js, React, Node.js, WebSockets
- Features: Real-time ride matching, user authentication, interactive ride coordination
- Functionality: Enables users to find and coordinate rides with others through a real-time platform using WebSockets for instant updates

Docflow Pro | MERN Stack (MongoDB, Express.js, React, Node.js)

- Tech Stack: MongoDB, Express.js, React, Node.js, FastAPI, Material-UI, Axios, React Router
- Features: Role-based access control (Admin, Editor, Viewer), document and folder management, AI-driven summarization, smart search
- Functionality: Centralizes document management with secure JWT authentication, supports .pdf, .docx, .pptx, .txt files, and enables collaboration through workflows (Draft, In Review, Approved) and threaded comments

EstateEdge | HTML, CSS, JavaScript, PHP

- Tech Stack: HTML, CSS, JavaScript, PHP
- Features: Interactive popups, enhanced UI with navigation upgrades, property listings with image uploads
- Functionality: Allows users to browse real estate listings with interactive popups for property details and supports image uploads for listings

MovieWatchlist | ASP.NET Web Application (Microsoft SQL Server)

- Tech Stack: ASP.NET (C#), Visual Studio, Microsoft SQL Server
- Features: CRUD operations, user authentication, movie record organization
- Functionality: Enables users to create, read, update, and delete movie records, organizing them efficiently with user authentication for secure access

Skills

- **Programming Languages:** C, C++, Python, Java
- **Web Development:** HTML, CSS, JavaScript, PHP, React, Node.js
- **Databases:** MySQL, MongoDB
- **AI & Data Science:** Machine Learning, Generative AI, Pandas, NumPy, Scikit-learn, FastAPI
- **Software Development:** Data Structures & Algorithms (Dynamic Programming, Arrays, Graph Algorithms), OOP, SDLC, Git, Visual Studio
- **Data Tools:** Power BI (Beginner)
- **Soft Skills:** Problem-Solving, Analytical Thinking, Team Collaboration, Time Management

CERTIFICATES

- Ethical Hacking – NPTEL (2024)

LANGUAGES

- English (Fluent)
- Konkani (Native)
- Marathi (Fluent)
- Hindi (Fluent)
